#### CHAPTER DESCRIPTION

The Monthly Report presents key financial and utilization components for the current reporting month as well as renewal year to date. The chapters are intended to highlight key analysis criteria to demonstrate how WEBB COUNTY: ALL is doing fiscally, with focus on what is driving their costs. In addition this report highlights what healthcare services are being utilized and how this impacts the overall cost. The report starts with components that provide financial data showing paid claims on a month and year to date (YTD) basis. After the enrollment chapter, components that provide utilization data are shown on an incurred year over year basis. The data in this report can be used to predict how WEBB COUNTY: ALL can budget for health costs and what they are facing in the future. In this chapter there is a brief description about the subsequent chapters and key metrics to summarize their findings.

All data and metrics in this chapter can be located through the interactive application of Blue Insight.

### FINANCIAL

The financial overview chapter provides gross financial information for WEBB COUNTY: ALL based on paid claims for the current reporting month and for the renewal year to date. The claims have not been aggregated or summarized, so all transactions are reflected based on the paid date and balances back to your Billing and Accounts Receivable System (BARS) bill.

**Key Findings:** The total subscriber count for males was highest in the 50 - 64 age range. Male subscribers in the 50 - 64 age group had the highest net paid claims. The total subscriber count for females was highest in the 50 - 64 age range. Female subscribers in the 50 - 64 age group had the highest net paid claims.

The total dependent count for males was highest in the Under 20 age range. Male dependents in the Under 20 age group had the highest net paid claims. The total dependent count for females was highest in the Under 20 age range. Female dependents in the Under 20 age group had the highest net paid claims.

#### ■ EXPENSE AND UTILIZATION OVERVIEW

The expense and utilization overview chapter is intended to provide key metrics for WEBB COUNTY: ALL's claims experience. Year-over-year changes and comparisons to the benchmark are provided as well. Data in this chapter is reported based on incurred, 12-month rolling periods with 2 months run-out.

Report Description: This report shows key metrics, paid PMPMs, and paid PEPMs by service category.

### CHAPTER DESCRIPTION

This chapter provides gross financial information for WEBB COUNTY: ALL based on paid claims for the current reporting month and for the renewal year to date. The claims have not been aggregated or summarized, so all transactions are reflected based on the paid date for each individual transaction. This means that original claims are reflected based on the original processing date and adjustments are based on the date of the adjustment, even if the original claim was processed at a different time.

Reports in this chapter will include medical amounts only unless specifically indicated as pharmacy or dental amounts.

The first report provides a breakdown of key gross expenditures, from billed amount to paid amount, for the current reporting month and for the year to date. This report may highlight key measures and their potential impact on gross paid expenses.

The second report displays the percentage of the billed amounts accounted for by discounts and the allowed amount. Also presented is the percentage of the allowed amount accounted for by out of pocket, COB, COB Medicare, other reductions, other payments and the paid amount. It is important to monitor how these expense categories impact the overall costs over time. For example, changes to the plan design may be reflected by a change in the proportion of out of pocket to the allowed amount, and ultimately what is the liability of the plan, changes in the percentage of discounts may reflect provider contract changes or shifts in provider-mix, and changes in COB amounts may reflect a change in benefits or a changed focus to capture funds from these sources.

The third report presents gross allowed and paid amounts by service category, along with percentages these amounts by service category are to the total allowed amount and total paid amount. This breakdown provides a high level view of what service categories areas are driving expenses and potentially highlights areas for further attention.

The fourth report focuses on how expenditures are distributed by claimant. The distribution of claimants by paid amount shows the percentage of claimants at different levels of total payments for the current reporting month and for the year to date. Analysis of this report can highlight the impact of high cost claimants on the overall costs.

The distribution of claimants by out of pocket shows the percentage of claimants at different levels of out of pocket expenses. This report helps determine the impact of any changes in plan design on out of pocket.

Completing the chapter are reports that provide information on network savings (for PPO and POS products), and insight into the monthly claim lag and that can help identify Incurred But Not Reported (IBNR).

All data and metrics in this chapter can be located through the interactive application of Blue Insight.

#### Data Note

Current reporting month represents claims paid in Apr'14.

Year to date represents claims paid from Nov'13 through Apr'14.

Raw claims for active, retiree under 65, retiree 65 and over, and COBRA members are reported (if available).

### SUMMARY OF FINANCIAL MEASURES

Report Description: This report provides an overview of WEBB COUNTY: ALL's health care expenses from billed to paid for the current reporting month and for the year to date. Some key financial measures are displayed below. These metrics include plan performance measures, such as the degree of discounts the plan was able to achieve, as well as COB and COB Medicare recoveries that the plan was able to receive based on other insurance contributing to the overall expenses. Information is also provided on the amount of overall health care expenses that the member was directly responsible for, through deductibles, coinsurance or co-payments. Finally, the report provides information on the level and percent changes in paid expenses, which represents WEBB COUNTY: ALL's liability, with a further breakout for Fees and Credits.

## EXPENSE AND UTILIZATION OVERVIEW

#### CHAPTER DESCRIPTION

The expense and utilization overview chapter is intended to provide key metrics for WEBB COUNTY: ALL's claims and eligibility experience. Year-over-year changes and comparisons to the benchmark are provided as well. Typically, when analyzing the health plan's overall performance in the last year, two sets of questions are asked:

- 1. What is the percent change in membership and paid expenses?
- 2. How does WEBB COUNTY: ALL's experience compare to the benchmark?

The report provides a high-level breakdown of year-over-year expense and utilization changes and comparisons to the benchmark. The Key Indicators table provides information related to the demographic make-up of WEBB COUNTY: ALL and how paid expenses are distributed across all service categories. Demographic information is calculated using medical enrollment only. All per 1000, per employee, and per member measures are calculated using medical, dental, or pharmacy enrollment as appropriate. A graph is also provided that shows the proportion of paid by service category.

All data and metrics in this chapter can be located through the interactive application of Blue Insight.

#### Data Note

Reporting is based on incurred, 12-month rolling periods with 2 months run-out.

Current reporting period represents claims incurred Mar'13 through Feb'14 and paid through Apr'14.

Prior reporting period represents claims incurred Mar'12 through Feb'13 and paid through Apr'13.

Claims for active, retiree under 65, retiree 65 and over, and COBRA members are reported (if available).

Benchmarks are based on BCBSTX's non-HMO fully insured and self insured book of business. The book of business includes all groups with greater than 500 subscribers.

#### 🗎 SUMMARY OF FINDINGS

Overall membership remained stable. Contract size remained stable and the average age remained stable.

Overall medical paid PMPM increased 25.1%. Dental paid PMPM increased 12.4%. For medical paid PMPM by service category, inpatient facility increased 72.3%, outpatient facility increased 7.0% and professional increased 10.5%.

#### CHAPTER DESCRIPTION

This chapter presents information on key expense and utilization metrics for WEBB COUNTY: ALL, how they changed over time and how they compare with the benchmark.

This first group of reports focuses on WEBB COUNTY: ALL inpatient facility admission experience. The first inpatient report details key statistics for maternity and non-maternity admissions (medical, surgical, mental health/substance abuse and non-acute) with percent change and benchmark comparisons. The second inpatient report lists the top ten inpatient providers ranked by number of admissions and by paid PMPM.

The second group of reports analyzes expense and utilization specifically related to visits provided in the outpatient facility setting for WEBB COUNTY: ALL. The first report presents outpatient expense and utilization by visit type with percent change and benchmark comparisons. The second report examines the top ten most frequent reasons for an outpatient emergency room visit, surgical procedure, and radiology service. The third report lists the top ten outpatient providers ranked by number of admissions and by paid.

The last report encompasses all the services for WEBB COUNTY: ALL provided by physicians and other clinicians, ancillary services and supplies. This report analyzes the expense and utilization of professional services by service type with percent change and benchmark comparisons.

All data and metrics in this chapter can be located through the interactive application of Blue Insight.

#### Data Note

Reporting is based on incurred, 12-month rolling periods with 2 months run-out. Current reporting period represents claims incurred Mar'13 through Feb'14 and paid through Apr'14. Prior reporting period represents claims incurred Mar'12 through Feb'13 and paid through Apr'13. Claims for active, retiree under 65, retiree 65 and over, and COBRA members are reported (if available). Benchmarks are based on BCBSTX's non-HMO fully insured and self insured book of business. The book of business includes all groups with greater than 500 subscribers.

#### INPATIENT ADMISSION ANALYSIS

Report Description: Expense and utilization measures are displayed in the table below for the following admission categories: maternity, medical, mental health/substance abuse, non-acute, and surgical. Current reporting period, prior reporting period, and benchmark measures are analyzed in the table. The paid amount is based on the inpatient facility component only. Inpatient professional statistics are not reported.

#### CHAPTER DESCRIPTION

Since high cost claimants (HCC) can be a significant driver in WEBB COUNTY: ALL's overall percent changes, analyzing the impact and characteristics of this population is important. High cost claimants are defined as claimants who have paid expenses in excess of \$50,000 for a reporting period. This analysis also shows the types of conditions that are prevalent among high cost claimants.

The first report shows the proportion of high cost claimants to the total claimants and the proportion of the total paid expense incurred by high cost claimants.

The second report shows the percent changes in paid expenses for high cost claimants by service category. It also shows what proportion of expenses for high cost claimants are for inpatient, outpatient, professional and pharmacy services.

The third report provides a distribution of high cost claimants by condition. This report identifies those conditions that are most prevalent among high cost claimants during the current reporting period.

The final report displays demographic, diagnostic and incurred expense detail on WEBB COUNTY: ALL's top 20 high cost claimants for the current reporting period.

All data and metrics in this chapter can be located through the interactive application of Blue Insight.

#### Data Note

Reporting is based on incurred, 12-month rolling periods with 2 months run-out.

Current reporting period represents claims incurred Mar'13 through Feb'14 and paid through Apr'14.

Prior reporting period represents claims incurred Mar'12 through Feb'13 and paid through Apr'13.

Claims for active, retiree under 65, retiree 65 and over, and COBRA members are reported (if available).

#### SUMMARY OF FINDINGS

The proportion of paid expenses due to high cost claimants increased 105.0% from 19.1% to 39.2%. The number of high cost claimants increased 93.3% from 15 to 29 and the paid expense per claimant increased 34.8% from \$105,509 to \$142,277.

During the current reporting period, high cost claimants represented 0.9% of total claimants and accounted for 39.2% of total paid expenses. The average paid expense per claimant was \$3,208 while the average paid expense per high cost claimant was \$142,277.

Amongst high cost claimants' paid expenses, inpatient facility accounted for 65.4% of total HCC paid expenses, outpatient facility accounted for 19.9% and professional services accounted for 14.6%.

Out of the \$4,126,034 in paid expenses for high cost claimants, Circulatory accounted for 30.0%, Digestive accounted for 18.1% and Congenital Anomalies accounted for 16.7%.

#### CHAPTER DESCRIPTION

This chapter provides dental utilization and enrollment information for WEBB COUNTY: ALL. The report presents services/1,000, paid PMPM amounts and paid per service by dental service type based on 12-month rolling incurred periods. This breakdown provides a high level view of what service types are driving expenses and potentially highlights areas for further attention. In addition to showing WEBB COUNTY: ALL's percent change for the two reporting periods, benchmark data for the service types is also included.

All data and metrics in this chapter can be located through the interactive application of Blue Insight.

#### Data Note

Reporting is based on incurred, 12-month rolling periods with 2 months run-out. Current reporting period represents claims incurred Mar'13 through Feb'14 and paid through Apr'14. Prior reporting period represents claims incurred Mar'12 through Feb'13 and paid through Apr'13. Claims for active, retiree under 65, retiree 65 and over, and COBRA members are reported (if available). Benchmarks are based on BCBSTX's non-HMO fully insured and self insured book of business. The book of business includes all groups with greater than 500 subscribers.

#### 🚟 SUMMARY OF FINDINGS

Overall total payments increased 14.3% from the prior reporting period.

54.2% of paid expenses were concentrated in preventive and diagnostic procedures categories. 22.3% of paid expenses were preventive and 32.0% were diagnostic.

The average claim payment was \$62, compared to the prior reporting period average of \$64.

### **DENTAL SERVICE TYPE ANALYSIS**

**Report Description:** Overall expense and utilization are displayed below for the top 10 dental service types by paid PMPM for the current and prior reporting periods. An analysis of percent change and comparison to the benchmark are provided for each dental service type. The pie graphs display the percentage of services/1,000 and paid amount for the current reporting period.

### DENTAL SERVICE TYPE ANALYSIS, CONTINUED

**Expense:** Overall, WEBB COUNTY: ALL's change in paid PMPM for dental service visits was 12.4% and was lower than the benchmark. A comparison of paid PMPM by dental visit type showed that Diagnostic was lower than the benchmark, Restorative was lower than the benchmark, and Preventive was lower than the benchmark.

**Utilization:** The change in overall dental services/1,000 was 15.7% and was lower than the benchmark. A comparison of services/1,000 by service type showed that Diagnostic was lower than the benchmark, Restorative was lower than the benchmark, and Preventive was lower than the benchmark.

### APPENDIX: ICD-9 CATEGORY DEFINITIONS

- Complications of Pregnancy, Childbirth and the Puerperium: Includes vaginal and cesarean deliveries and complications of pregnancy, such as ectopic and molar pregnancies. Puerperium refers to 42 days following childbirth and expulsion of the placenta. Refers to the mother only.
- **Conditions Influencing Health Status:** This includes post-surgical states, organ / tissue transplants, artificial limbs and replacements. Examples include knee replacements and kidney transplant status.
- **Conditions in the Perinatal Period:** Perinatal refers to the period beginning after the 28th week of gestation and ending 28 days after birth. Problems can include hemorrhage, digestive disorders, respiratory distress syndrome and disorders relating to short gestation and unspecified low birth weight.
- **Congenital Anomalies:** Includes the treatment of any condition present at birth. This includes Spina Bifida, cleft palate, Down's Syndrome, heart disease, kidney displacement & polycystic kidney disease.
- Diseases of the Blood and Blood Forming Organs: Includes any problems associated with white or red blood cells, platelets or plasma. An example includes Anemia, a deficiency in red blood cells.
- Diseases of the Circulatory System: Includes problems with the heart, blood vessels and circulation. Some common diagnoses include Coronary Artery Disease, cardiovascular disease, and stroke.
- Diseases of the Digestive System: Includes the treatment of any organ or area of the body pertaining to digestion.

  These areas include the mouth/teeth, esophagus, stomach, intestines, gall bladder, liver and pancreas.

  Diagnoses include: Esophageal Reflux, Gastroenteritis, Appendicitis and hernias.
- Diseases of the Genitourinary System: Includes problems related to the kidneys, bladder and male and female genitalia. Common diagnoses include Hematuria, Urinary Tract Infection, Acute or Chronic Renal Failure and Calculus of Kidney (stones).
- Diseases of the Nervous System: Includes treatment for disorders of the Central and Peripheral Nervous systems.

  Diagnoses include: Carpal Tunnel Syndrome, Obstructive Sleep Apnea, Epilepsy, Multiple Sclerosis,

  Alzheimer's Disease and Migraine headaches.
- **Diseases of the Respiratory System:** Includes treatment for diagnoses such as Asthma, Pneumonia, Emphysema, Pharyngitis, Sinusitis, Bronchitis and COPD. These can be acute or chronic in nature.
- Diseases of the Skin and Subcutaneous Tissue: This involves any condition relating to the skin or beneath the skin, including hair and nails. Some conditions include Acne, Corns, Cellulitis, Psoriasis, Dermatitis and fungal infections.
- Ears and Mastoid: Includes any condition pertaining to the ear or the mastoid process. The mastoid process is the portion of the temporal bone extending down behind the ear. Diagnoses include Otitis Media, Tinnitus, Meniere's Disease, Hearing Loss and Labyrinthitis.
- **Endocrine, Nutritional and Metabolic Diseases:** Endocrine disorders include those of the endocrine glands and includes the thyroid, pituitary, pancreas, ovaries and testes. Disorders include Diabetes, thyroid disease, Obesity, Hyperlipidemia, Cystic Fibrosis and any disease affecting the immune system.
- **Health Services:** This includes elective surgeries, other procedures & aftercare, rehabilitation and dialysis. Specific examples include: long-term medication use, Physical Therapy and chemotherapy.
- Health Services: Reproduction and Development: Include services pertaining to the child only. For example, normal pregnancy, post-partum care and exam or health supervision of an infant or child.

## APPENDIX: ICD-9 CATEGORY DEFINITIONS

- Infectious and Parasitic Diseases: Includes diseases caused by microbes outside of the body that infect and cause damage within the body. These diseases are recognized as communicable or transmissible. Diagnoses include HIV, Hepatitis, Colitis & intestinal disruptions such as food poisoning.
- **Injury and Poisoning:** Includes treatment for injuries to the body or for any poison ingested. Diagnoses include sprains & strains, fractures, burns and lead poisoning. Patients are most commonly seen in the emergency room for acute conditions.
- Mental Health: Refers to a group of disorders causing severe disturbances in thinking, feeling or relating. Includes treatment of any condition that affects mood or behavior. The most common diagnoses include anxiety disorders, depressive disorders and schizophrenia.
- Musculoskeletal and Connective Tissue Disease: Includes orthopedic treatment, which would involve anything related to the bones, muscles, joints and soft tissue. Diagnoses: Arthritis, Tendonitis, back disorders, disc disorders, rheumatism, and scoliosis. These diagnoses are more chronic in nature.
- **Neoplasms:** Includes any abnormal growth of cells, either benign or malignant (cancer). Though these can be found at any spot of the body, some of the most common forms include neoplasms of the breast, prostate, stomach and brain. Other examples include Leukemia and Hodgkin's Disease.
- Other Circumstances: This includes convalescent care and follow-ups to surgeries and examinations.
- Potential Health Hazards: Personal or family history of diseases or disorders; e.g., breast cancer.
- **Procreative and Contraceptive Management:** This includes artificial insemination, fertility testing, genetic counseling, family planning, sterilizations and contraceptive management.
- Signs, Symptoms and III-Defined Conditions: Includes signs, symptoms, abnormal lab results and iII-defined conditions for which no known cause can be found. For example, a patient may experience chest pain, but no known cause is found.
- Substance Abuse: Includes behavior marked by the use of chemically active agents, such as prescription or illicit drugs, alcohol or tobacco. Cognitive, behavioral and physiological symptoms indicate that the person continues use of the substance.
- Without Reported Diagnosis: This includes general medical examinations, gynecological exams, mammogram screenings, preventive services, physicals and special screenings for neoplasms.

- 3-Digit Principal Diagnosis: Grouping of principal diagnoses based on the first three digits of the ICD-9 diagnosis code
- Admin Fees: The charge to an account for HCSC's operational cost of doing business.
- Administrative Services Only (ASO): A contract between HCSC and a self-funded plan where HCSC performs administrative services only and does not assume any financial risk. Services usually include claims processing but may include other services such as actuarial analysis and utilization review.
- Admissions/1000: The number of hospital admissions for each 1000 persons covered within a given time period. This allows for comparison of the group experience to a normative or benchmark population. It is calculated as: (admissions/member months) *1000 * 12
- **Aggregate:** Constituting or amounting to a whole. For example, an aggregate account report includes data for the entire account.
- Aggregate Stop Loss: A form of reinsurance that provides protection for medical expenses above a certain limit, generally on a year-by-year basis. Aggregate stop loss provides protection against the accumulation of total claims for a group as a whole exceeding a stated level.
- Allowed: Amount considered eligible for payment by the plan
- Allowed/Claimant: Amount considered eligible for payment by the plan per claimant. It is calculated as: Allowed / Claimants
- Allowed/Day: Amount considered eligible for payment by the plan per inpatient day. It is calculated as: Allowed / Days
- Allowed/Service: Amount considered eligible for payment per admit (inpatient facility), per visit (outpatient facility and professional) or per script (prescription Rx). It is calculated as: Allowed / Services
- ASO Adjustments: An amount added or deducted from ASO (Administrative Services Only) fees. This includes Stop Loss Reimbursements.
- Average Age: The difference between the claimant's year of enrollment and year of birth. Calculated using the measure Average Age divided by the members represented in the report.
- Average Contract Size: The average number of members per subscriber. It is calculated as: Medical Members / Medical Subscribers
- **Average Dependents:** Calculated using the measure Member Months (filtered on the Relationship = Dependents) divided by the number of months in the report.
- Average Ingredient Cost: Represents the cost of the medication and is determined from the lowest submission of the pharmacy network rate, Usual & Customary amount, or Maximum Allowable Cost (MAC)
- Average Length of Stay: Admit last date of service minus admit first date of service (plus 1 if last day=first day). It is calculated as: Days / Services
- **Average Members:** Calculated using the measure Member Months divided by the number of months included in the report.

**Average Subscribers:** Calculated using the measure Subscriber Months divided by the number of months included in the report.

Benchmark: Represents the BCBSTX book of business that is loaded into Blue Insight. The age/gender adjustment factors are built using the paid claims and enrollment information over a 3 year period from BCBSTX book of business. Some of the benchmark utilization and expense rates have been age/gender adjusted to reflect the potential difference in the age/gender distribution between the individual company and BCBSTX book of business. The demographic makeup of a specific group can be very different from any other group. It is for this reason that it is beneficial in providing benchmarks that have been adjusted by age and gender. These adjusted benchmarks will allow for more meaningful comparisons. These age / gender adjustments are present in metrics such as the paid PMPM benchmarks as well as all benchmarks that are displayed as a 'per 1,000' number however not all of the benchmark categories are adjusted by age / gender

Billed: Amount submitted for payment by the provider

Billing and Accounts Receivable System (BARS): An HCSC financial system where all Administrative Services Only (ASO) customer bills are generated.

Blue Card Access Fee: Interplan Teleprocessing Services fee charged on out-of-state claims for accessing the local plan's provider network

Brand Formulary: Brand name medications that are listed on the formulary

Brand Non-Formulary: Brand name medications that are not listed on the formulary

Capitation: A method of payment, exclusively for HMO members, where a physician or hospital is paid a fixed amount for each enrolled member for healthcare services regardless of the actual number or nature of services provided to each individual

Claimants: Number of individual members submitting a claim

Claim Lag: The amount of time between the date a claim is incurred and the date the claim payment is made.

**COB:** Portion of amount considered eligible for payment that has been paid by another insurance company (Coordination of Benefits)

COB Medicare: Portion of amount considered eligible for payment that has been paid by Medicare

**COBRA Members:** Consolidated Omnibus Budget Reconciliation Act - A federal law which requires most employers sponsoring group health plans to offer employees and their families the opportunity for a temporary extension of health coverage (called continuation coverage) when coverage under the plan would otherwise end.

Coinsurance: Portion of covered amount member is responsible to pay for the claim

**Compression Logic:** Used to roll up all claims data into episodes of care. By normalizing all claims data, it allows for comparative analysis (e.g., benchmarking and trend analysis).

Co-payment: Flat rate that the member is responsible to pay for the claim

**Cost Sharing Provisions:** Provisions in which the subscriber, HCSC, Medicare or other carriers have responsibility for a portion of the eligible charges.

**Coverage Tier:** Eligibility tiers which stratify enrollment data based on the employee and others enrolled under the employee's coverage. Varying benefits can be assigned to tiers.

Covered Amount: Amount eligible for payment based on the terms of the medical/dental benefits agreement.

DAW/1: Indicates that the physician has specified 'do not substitute' on the prescription

Days: Count of days

Days/1000: Number of inpatient days per 1,000 members. It is calculated as: (Days / Member Months) * 1000 * 12

Deductible: Portion of annual deductible amount member is responsible to pay applied to the claim

Demographic Make-up: Derived from the age/gender mix of the account

Dental Loss Ratio: Calculated as the Dental Paid Claims Amount divided by the Billed Dental Premium Amount

**Dental Paid Claims:** An amount paid to cover the Health Plan's liability for dental services provided to members for claims that have been processed and approved for payment

Detailed Service Type: Classification based on CPT -- detailed level

Diagnostic Radiology: Refers to radiology services used for diagnostic purposes, as opposed to therapeutic purposes

Discount: Amount of reduction from billed amount that has been negotiated with the provider

Discount %: For medical claims, the discount percent is calculated as Discount / Covered

Dispensing Rate: The proportion of total drugs claims a certain drug or drug type is being dispensed

**Drug Type:** An indicator on each Rx claim that tells whether a prescription is single source brand, multi-source brand or generic item.

Effective Discount %: The effective discount percentage is calculated as: Discount / (Discount + Paid)

Inpatient Facility: Refers to Inpatient Facility claims

International Classification of Diseases (ICD-9): An official list of categories of diseases, physical and mental, issued by the World Health Organization (WHO).

IP Paid PEPM: Inpatient facility paid amount per employee per month

IP Paid PMPM: Inpatient facility paid amount per member per month

**Leading ICD-9 Diagnostic Category:** For each patient, summarize total paid amount for each diagnosis and its corresponding MDC. The MDC with the greatest paid amount for the patient becomes the Leading ICD-9 Diagnostic Category for the reporting period

MAC Program Savings: Savings achieved by using the MAC (maximum allowable cost) discount on generic medications

Management Services: A combination of Capitation, Fees & Credits and Recoveries for medical services applied to the Employer Group's account

MDC (DRG): Major Diagnostic Category based on DRG, available only in inpatient reports

Medical Paid Claims: An amount paid to cover the Health Plan's liability for medical (healthcare) services provided to members for claims that have been processed and approved for payment

Medical/Pharmacy Loss Ratio: Calculated as the combined Medical and Pharmacy Paid Claims Amount plus Capitation divided by the total Billed Premium Amount for Medical and Pharmacy, where appropriate

Member Months: Count of months of eligibility for members

Multi-Source Brand: Brand name medications with a generic equivalent

**Network Indicator:** An indicator that shows whether the claim was processed as **in-network** (e.g., in the Preferred Provider Organization network) or out-of-network and paid accordingly

Network Savings Discount: The discount that is applied when a member receives services from a contract provider.

Non-acute: Refers to inpatient facility admissions for rehabilitation, skilled nursing facilities and hospice care

Not Covered: Amount considered not eligible for payment by the plan (excludes the discount amount)

**Observation Room:** A hospital room in an outpatient setting (less than 24 hours) that is necessary to evaluate/monitor the patient's condition for possible inpatient admission.

**Occupational Therapy:** Therapy based on engagement in meaningful activities of daily life especially to enable participation in such activities in spite of impairments or limitations in physical or mental functions.

OP Paid PEPM: Outpatient facility paid amount per employee per month

OP Paid PMPM: Outpatient facility paid amount per member per month

Other Adjustments: Minor payments or credits not captured in other specific expense measures

Other Payments: Combination of Blue Card access fees and surcharge expenses

Other Reductions: Combination of maximum reductions, penalties, workers compensation savings, and subrogation savings

Out of Pocket: Total amount that is the responsibility of the claimant. It is calculated as: (Copay + Deductible + Coinsurance)

**Outpatient Facility:** Refers to Outpatient Facility claims

Paid: Total amount paid by the plan, including access fees, adjustments, and surcharges

Paid + Recoveries: The total amount paid by the plan plus any amount recovered through subrogation.

Paid-Provider: Amount paid to the provider by the plan

Paid/Claimant: Amount paid to the provider by the plan per claimant. It is calculated as: Paid / Claimants

Paid/Day: Amount paid to the provider by the plan per inpatient day. It is calculated as: Paid / Days

Paid/Service: Amount paid to the provider by the plan per admission (inpatient facility), per visit (outpatient facility and professional) or per script (prescription Rx). It is calculated as: Paid / Services

Paid/Visit: Amount paid to the plan per professional visit. It is calculated as: Paid / Visits

Paid PEPM: Amount paid to the provider by the plan per employee per month. It is calculated as: Paid / Subscriber Member Months

Paid PMPM: Amount paid to the provider by the plan per member per month. It is calculated as: Paid / Member Months

Penalty: Amount charged to the user of health care services for a non-approved contractual service

PEPM: Per employee per month

Pharmacy Discount %: For pharmacy claims, the discount percent is calculated as Discount / (Discount + Allowed)

Pharmacy Paid Claims: An amount paid to cover the Health Plan's liability for pharmacy services provided to members for claims that have been processed and approved for payment

**Pharmacy Tier:** An indicator on each Rx claim that tells whether a prescription is generic, preferred brand, non-preferred brand, specialty, or other

**Physical Therapy:** The treatment of injuries or disorder through physical activity with goals of restoring and/or maintaining functional activities.

Place of Service: An indicator of whether the professional services were rendered during an inpatient admission, outpatient visit, office visit, or other

**Plan Eligibility:** Eligibility derived directly from the plan's enrollment system. It excludes eligibility created during data processing for claims without matching records in the enrollment system.

PMPM: Per member per month

PR Paid PEPM: Professional paid amount per employee per month

PR Paid PMPM: Professional paid amount per member per month

**Premium:** An agreed upon fee paid to the Health Plan for coverage of medical and/or dental benefits for an established benefit period and set intervals

PT/OT/ST: See Physical Therapy, Occupational Therapy and Speech Therapy.

Recoveries: Subrogation and/or Reimbursements for claims that are included in BARS but not in HCSC's data warehouse (since some of the reimbursements could be for members or claims that are no longer in our data warehouse). Recoveries are loaded from the BARS System and included in Blue Insight for reconciliation purposes.

**Reporting Period:** The date range for which the report was run. When data is not available for the complete reporting period, partial totals will be displayed and comparisons may be inconclusive.

Rx Credit Fees: Drug rebates that are credited back to the account.

Rx Paid PEPM: Prescription drug paid amount per employee per month

Rx Paid PMPM: Prescription drug paid amount per member per month
